Subject: RE: MSANK priority pollutants

Hi Maggie,

Sorry for the delay in responding. Sadly, I don't have a good reason for why the influent and sludge priority pollutants were not analyzed in 2018 but thanks for checking.

Hi Linda,

Wow. I thought I had checked my email files for any priority pollutant scans (cause I did not find them in the paper report) and totally missed those- I found them now. So unfortunately, I can't count the 2019 tests as a make up for 2018- as it was not conducted in 2018. That being said, it would count for 2019.

I do have it as a record though- was there a particular reason they were missed? E.g. changed labs etc?

Best,

Maggie

Hi Maggie,

I had a quick question regarding your review of MSANK's 2018 pretreatment annual report, specifically the priority pollutant scans of influent and sludge that were not conducted in 2018. I believe that Joe Ditty took samples in June 2019 to make up for the missed samples in 2018. He said that he sent them to you in 2019.

My question is does a make-up sample have to be collected and analyzed in the same year it is due? In other words, can you miss a sample in 2018 and make up for that in 2019?

Thanks.
